

LEAPFROG HOSPITAL SAFETY GRADE

How hospitals and health systems can advertise their 'A'

QUALITY IS IN OUR DNA

The Only A-Rated Hospitals on the Coast.

*Singing River Health System in
Partnership with Ochsner is Top
of the Class in Patient Safety.*

The Leapfrog Group is an independent nonprofit organization committed to driving quality, safety, and transparency within healthcare organizations.

"A" grades for Patient Safety are given to hospitals who best protect their patients from errors, injuries, accidents, and infections. Only 33% of hospitals nationwide were awarded this coveted rating during the Spring 2021 grading.

Singing River Health System in partnership with Ochsner's hospitals were named the coast's only A-rated facilities, placing our four hospitals among the safest healthcare facilities nationwide.

We are proud to provide the best and safest care on the Mississippi Gulf Coast. See how we measure up at HospitalSafetyGrade.org.

As we continue to fight through the COVID-19 pandemic, we encourage hospitals to utilize their license to share their safety practices and build trust with their communities. Consider these tips and sample headlines when creating your ad:

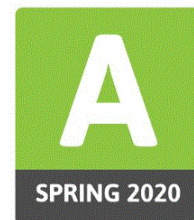

1. Share your current safety practices that help prevent the spread of COVID-19 and hospital acquired infections.
2. Give information on what you are doing within your community to provide testing and other support.
3. Sample Headlines:
 - [Hospital Name] Providing the Safest Care No Matter What is Thrown Our Way
 - [Hospital Name] Ready for Anything
 - Caring for You Every Step of The Way
 - Safety First. No Matter What.
