EVERYONE IS PRACTICING SAFETY FIRST.  
ST. FRANCIS IS THE ONLY ONE THAT’S FIRST IN SAFETY.

St. Francis Hospital has been nationally recognized for the safest care on Long Island.

The Leapfrog Group* and CMS agree. We offer the highest-quality and safest care anywhere on our island. We have reinforced our rigorous and comprehensive safety measures, so you can access the care you trust, and achieve the health you deserve.

Learn more at StFrancisSafe.org

*This is the 2019 'Top General Hospital' award Leapfrog bestowed upon SFH.

When it comes to patient safety, ACMC MAKES THE GRADE.

Every day, ACMC caregivers come to work with one goal in mind: providing the best care to our patients in the safest way possible.

The dedication of our caregivers has reduced the number of patient falls, lowered infection rates, and decreased the number of bed sores. We’ve also improved communication about medications and discharge, enhanced communication with doctors and nurses, and increased the responsiveness of staff.

How do we know those efforts and many others are making an impact?

ACMC’s “A” Leapfrog Hospital Safety Grade says it all.

Ashtabula County residents can take comfort in knowing they’re being cared for at one of the safest hospitals in America – right here in Ashtabula County. Right here at ACMC.
